

Spencer's grow with Me!

Introducing our fresh new prints
& colors for 2017!

Softer colors with a bright & modern twist and cute appliques to complete the look. Our line includes our SGWM classic features per stage, new essential items such as bibs, burp cloths and PJ sets, and cute new finishes in some of our designs. With this collection we introduce a hanger pack option in select styles, making it easier to display our brand in your store!

At Spencer's we are working hard to continue producing products of excellent quality at the best prices, providing better service to our clients, specially when ordering and requesting more product information, and improving our product offering and variety for today's market.
