9-12 Months
21-25 lbs.

Look At Me Go!

18 Months
25 -30 lbs.

24 Months
31 lbs. & up

At **Spencer's** we are constantly studying the way babies grow and develop, as well as the latest trends in children's fashion. We have organized our products into three key stages, each fitted to babies' behavior and motor skills within the first two years. Our goal is to make babies feel comfortable, look cute, and, most importantly, keep them safe. Spencer's is there every baby step of the way!

First Stage: Hold Me!

Newborn babies like the warmth and coziness of being cuddled. Features like footed pajamas and mitten cuffs on long sleeve garments will give your baby the comfort and security that they require at this stage.

Second Stage: Happy Crawling.

As babies become more active, they frequently roll on their bellies, lift their heads for curiosity, and begin to lunge forward on their knees or even stand with assistance. We have comfortable mobility in mind offering protected knees in most pant sets and sleep n' plays while also introducing footless options for greater traction.

Third Stage: Look At Me Go!

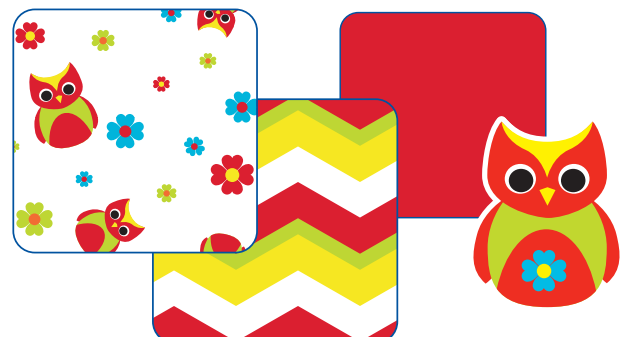

At this stage babies take their first steps or even become proficient walkers, they are more independent and try to imitate mom and dad. Thus, we feature safety options like non-skid soles for good traction and balance when learning to walk with fashionable designs as babies develop their own style.
